### END POVERTY & CHILD RELINQUISHMENT IN HAITI

Haitian families have to fight hard in order to stay together. Poverty, disease, political instability, natural disasters, and personal stresses divide families every day. Poverty is the primary reason that there are thousands of children in orphanages in Haiti. The Apparent Project is responding to these needs by building homes, teaching marketable artisan skills, and responding to the emergency needs of Haiti's poor in Port Au Prince. If you would like to help these families, please consider purchasing some hand crafted jewelry, journals, or clothing.
